

CIVIC ENGAGEMENT (CE) REQUIREMENT

Hagen Center Mission Statement

To create community-based learning experiences in collaboration with faculty, staff, and community partners that advance the common good and empower students to be active, engaged citizens and catalysts for change.

Part of a liberal arts education at Wittenberg is Experiential Learning.

Civic engagement (CE) is a form of experiential learning that may be completed in one of several ways.

Different options allow for direct service, coursework, research and reflection to **engage with the community in a variety of ways.**

Ways to complete this requirement:

CCUE 100

Serve in Springfield/Clark County with a community partner site

Complete 27 hours of service and 3 hours of reflection (30 hours total).

We connect students with partners and guide them through the course.

CCUE 100 is offered every semester (including Summer Session).

FIRE WEEK

Take advantage of a CE FIRE Week

Students participating will enroll in dedicated CE course to complete pre-orientation and post-trip reflections and complete service during the experience.

SERVICE AWAY

Participate in a CE designated study away

Students must complete pre-approved and Wittenberg sponsored civic engagement requirements for this option to count.

CE DESIGNATED COURSES

Enroll in an academic course that includes a CE experience

Courses in academic departments may be major requirements or electives. Search "civic engagement" under **course type** on self-service. Students register for **CCUE 130** as a co-req.

CCUE 150

Receive permission to take a specialized CE project tied to a course

May be proposed by students, faculty, or community partners. Approval by faculty is required to enroll and space is limited.

CIVIC INTERNSHIP PROGRAM

Apply for a summer community internship run by the Hagen Center

Program pairs students with Springfield nonprofits in a paid summer internship. Enrolled students complete CCUE 491.
