HSA Advantage™
Transfer Your Existing HSA

Combine Your Accounts for Easier Balancing

If you have more than one HSA, pulling them together into one HSA Advantage account makes sense. You will only need to manage one account and you will have a larger balance for investments. To start the process, you must confirm that your HSA Advantage account is open. Go to the Chard Snyder website and log into your account. If there is money in the account, it is open.

Notify Both Banks of Your Decision

Contact Chard Snyder to request a HSA Advantage™ Transfer Request form. Complete and forward the form to the bank currently holding the funds. The original bank will write a check for the amount of your request (either all or a part of the account) and send it directly to HSA Advantage to be deposited. It may take up to 60 days to complete the entire process and make your funds available.

If the original bank chooses not to transfer your account, you must check with them for details.
