

The Chard Snyder Health Savings Account

What is a Health Savings Account?

Consider enrolling in a [Health Savings Account](#) (HSA) if you are enrolled in a High Deductible Health Plan (HDHP). An HSA is a personal bank account that helps you save money when paying for healthcare expenses for you and your family. After deciding the amount you want to contribute, HSA funds are deducted from your paycheck before taxes so you can use them to pay for eligible expenses that your health insurance does not cover. An HSA stays with you after you leave your job and helps you save for retirement expenses.

What are the Advantages of an HSA?

An HSA provides you with **triple tax savings** by allowing you to:

- contribute to the account tax free,
- grow interest or earnings tax free, and
- pay for your eligible out-of-pocket expenses tax free.

You can also use your HSA as a long-term retirement investment option once you have reached a certain balance set by your employer. Your HSA account offers self-directed mutual fund investments to help you grow your healthcare savings for future needs.

Am I Eligible for an HSA?

If all of these statements are true, you are eligible to contribute to an HSA:

- I am **not** participating in another health plan (spousal plan, individual policy) that is not an eligible High Deductible Health Plan.
- My spouse is **not** enrolled in a healthcare plan that provides me with benefits before I have met the IRS annual minimum deductible. (Includes a Health Reimbursement Arrangement.)
- I do **not** receive Medicare benefits of any kind.
- My spouse or I have previously had a Health FSA but our FSA account balance is \$0.
- I have **not** received healthcare benefits (other than dental, vision, preventive or for a service-connected disability) from the Veterans Administration (TRICARE) within the last three months (including prescriptions).
