Wittenberg University

Checklist for Sponsored Project Proposals

PROPOSAL PROCESS: PRE-AWARD

It is strongly suggested that Investigators leave a reasonable lead time for completing the grant submission process as it is time consuming. The Academic Affairs and Institutional Research (AAIR) office can help support the submission process. Investigators are encouraged to follow the checklist in sequential order. Please contact the Assistant Provost for Academic Affairs and Institutional Research as soon as you decide to apply for a sponsored project, preferably at least 45 days prior to the submission deadline. Policies and forms related to this process are located on the IR website: http://www.wittenberg.edu/administration/provost/ir/sponsored-research

Investigator responsibilities:

1. Read the funder’s proposal guidelines thoroughly for your ability to meet eligibility requirements, documentation, and deadlines.

2. As you prepare to apply for a sponsored research or project grant, consider these overarching questions:
   a. How will students, faculty, and staff of Wittenberg benefit from the project?
   b. How will students, faculty, and staff of Wittenberg be involved with the project?
   c. How will engaging in the work of the sponsored project impact your work at Wittenberg and your future aspirations at Wittenberg?

3. Submission plan. Meet with Academic Affairs and Institutional Research to plan tasks required to meet the funding deadline. Contact Darby Hiller, hillerd@wittenberg.edu, or 937-591-1024, to set up a meeting.
   a. We will go over this checklist and the Internal Approval form.
   b. If this is a sub-award, submit full proposal if possible

4. Develop a budget. Meet with Director of the Office of Student Accounts to develop a preliminary budget.

5. Confer with your department chair for preliminary notification of your plans. Department chair signature is required for internal approval form and to sign off on new/additional space needs, and personnel budget items (e.g., course release, stipends, etc.).

6. Work with project partners on the project’s goals, scope of work, and assessment/evaluation methods. Write proposal.

7. For budgeting plans related to personnel during the academic year (i.e., course release, adjunct pay, stipends etc.), plan to meet with the Provost for preliminary notification and amounts. Prepare a synopsis of the grant proposal for this meeting.

8. If you intend to use human or animal subjects in your research, gather appropriate approvals from the Institutional Review Board (IRB) or the Institutional Animal Care and Use Committee (IACUC).
CHECKLIST FOR SPONSORED PROJECT PROPOSALS

a. Documents and procedures available on Research Ethics and Compliance website.

b. Wittenberg’s IRB is registered with the US Department of Health and Human Services (HHS): IRB00010236 Wittenberg University IRB #1; IORG0008550. (Attach approved petitions to the internal approval form or indicate that IRB/IACUC approval is pending is dependent on grant award.)

c. Complete the CITI Training modules appropriate to the research being conducted. Include certification of training with the IRB petition and/or the sponsored projects proposal. http://www.wittenberg.edu/administration/provost/ir/research-ethics/training

9. Read Wittenberg’s Policy for Financial Conflict of Interest and fill out and sign the Financial Conflict of Interest Disclosure Form (attach to internal approval form).

10. Determine Institutional Support needs related to:
   a. Space
   b. Physical Plant, Safety, and Environment
   c. Institutional Technology and Computing Services
   d. Other Equipment

   Complete the Worksheet for Institutional Support (attach to internal approval form). Even if you believe you have no institutional support needs, feedback from the Chief Information Officer and the Assistant Vice President for Physical Plant is required (an email communication from those positions will suffice as evidence that they have reviewed the proposal prospectus).

11. Complete Internal Approval Form (attach appropriate documents including full proposal)

12. Submit final proposal draft with Internal Approval Form to Academic Affairs and Institutional Research office at least ten days prior to Grant Proposal Submission Deadline.

13. Once final internal approvals are in place, submit grant packet with signatures to the Provost’s Office. Provost’s Office will record and store original documents, and send digital copies to the Investigator, Student Accounts, and Advancement. The grant packet includes: 1) Internal Approval Form (signed by all Investigators and Department Chair), 2) Budget, 3) Financial Conflict of Interest Disclosure Form, 4) Approvals from IRB/IACUC if available or necessary, 5) Completed Worksheet for Institutional Support, if required, and 6) The full proposal.

14. Investigator to submit the final proposal to the funder on or before deadline date. If an NSF application, investigator will release the application to the Authorized Organizational Representative (AOR) for final submission.
