Organizational Leadership is a Bachelor of Arts degree program that is leadership focused, multidisciplinary, and application oriented. This program is designed for students who want a broad academic background to prepare them for supervisory and management careers.

A rapidly growing global environment creates demand for professionals who are schooled in leadership. Employers look for individuals who exhibit strengths in problem solving, teamwork, critical thinking, sound judgment and decision making, listening, conflict management, and human resource management.

Wittenberg University’s Organizational Leadership Program is an excellent option for you. This Degree option is designed around your needs as a highly motivated professional who seeks career advancement while continuing to manage job and family responsibilities.
An education in organizational leadership can provide you with a broad perspective to prepare for today’s complex social, cultural, and professional issues that you are likely to encounter in positions of leadership.
