Cover Letter for the Operational Agenda

In the course of its work, the University Planning Commission became aware of a number of areas of policy or procedural concern as well as opportunities for improvement related to the management and regular operation of the University. In most cases, these concerns did not relate directly to strategic priorities as described in the UPC’s charge or to the realization of the Board’s vision statement. On the advice of our process consultant Jane Dockery of Wright State University’s Applied Policy Research Institute, we therefore gathered these recommendations into a document separate from the strategic plan. The attached “Operational Agenda” is organized under five goals, with preliminary guidance as to the office, committee, and/or individuals to which each goal and its related objectives should be referred for further review. Much of the work called for in the Operational Agenda can be taken up by existing entities on campus and addressed with current resources. Other priorities will require significant investment if progress is to be made.

The University Planning Commission submits this draft of the Operational Agenda for information to the Board of Directors at its February meeting, with the intention of sharing it as well with Wittenberg’s new President and the appropriate campus committees and offices as identified in the Agenda itself.

Respectfully,

Ty Buckman and Pete Hanson, UPC Co-Chairs, for the University Planning Commission
