NEVER GIVE OUT YOUR PASSWORD.
Check your handbook for policies and possible consequences. Remember—anything done under your login is your responsibility.

Need your Username and Password?

Open a web browser to https://my.wittenberg.edu

1. Then click on the “Click here to register your student, faculty or staff account or if you forgot your username” link
2. After registering, you’ll see your username displayed on the screen and then you can set your password.

Office 365

Students, Faculty and Staff have access to the Office365 Suite. You can either run the online versions or download and install it on your computer, as well as run it on most mobile devices.

Office365 includes
* Word
* Excel
* PowerPoint
* Outlook
* Skype for Business
* 1TB of OneDrive online storage space

To access this open a web browser to https://portal.office.com and login with your wittenberg.edu e-mail address and password.
Personal Computers on Wittenberg’s Network

If you have a computer or mobile device and wish to use the Campus Wireless, simply connect to the Witt-Student wireless network and sign in with your campus username and password.

Ineligible items:
Hardware running any server version operating system or server type application. Wireless data connection points, switches, routers or other hardware that change the configuration of Wittenberg’s physical network.

For gaming devices or smartTVs, register the device’s MAC address at https://netreg.wittenberg.edu/self_registration. Then connect the device to the Witt-Air wireless network.

Protect Your Personal Devices

Record the serial # and MAC address of your computer. This information will be helpful in the event your computer is lost or stolen.

To find your Machine Access Control (MAC) address:
Windows: click on Start >type “CMD”>in the command prompt, type “ipconfig /all” >look for Physical Address (Note you might have several listed, the one you want should match up with a line that has an IPv4 Address value)
Apple/MAC: network preferences>network>advanced>WiFi address or network address

Tiger-Print

You can now send your print jobs to a single printer and release it at any of the Multi-Function Printers (MFPs) around campus. From a campus desktop, or virtual desktop, select Tiger-Print when printing. Then at any of the MFPs around campus, swipe your Wittenberg ID card through the card reader and release your print jobs. You can also e-mail documents from your campus e-mail account to Tiger-print@wittenberg.edu and release them at any of the MFPs as well. There are ones located in the 24 hour lab in Hollenbeck 115, as well as Thomas Library and Student Center.
Connect to the University Remotely

https://virtual.wittenberg.edu

You can access a University Virtual Desktop from any compatible device with connection to the internet. For computers, you can point your web browser to https://virtual.wittenberg.edu, and once there log in with your campus credentials, a one time client installation will then allow you access to the virtual desktop.

For Mobile devices, be sure to download the Citrix Receiver Application for your device, and point it to https://virtual.wittenberg.edu to access the virtual desktop. For more information, including some help on accessing, please visit the Virtual Application/Desktop Guide: http://www4.wittenberg.edu/administration/cctr/networking/remotedesktop.html

Computer Labs Available

http://www4.wittenberg.edu/administration/cctr/

Wittenberg University has several Computer Labs around our campus, some of which are available as long as they are not being used for classes. There are also several labs around campus that are available to students for use outside of classes. In Hollenbeck Hall room 115 is a 24 hour lab, which is open all year round, and has color printing capabilities. All labs are maintained by the ITS Solution Center, so if you find any problems with something in lab, let us know either by e-mail at solution@wittenberg.edu or by phone at 937-525-3801.

Hall room 115 is a 24 hour lab, which is open all year round, and has color printing capabilities.

myMoodle

https://moodle.wittenberg.edu/login/index.php

If you are registered for a class and your instructor uses Moodle, you will be able to log into myMoodle and your course will be on the list. You can access myMoodle through the link in your myWitt Portal or by using the address www.moodle.wittenberg.edu
The Solution Center is Wittenberg's single point of contact for questions regarding Wittenberg's IT Services. We can help you get connected, install Antivirus Software, and diagnose problems with your personal computer.

To better serve you, we have day, evening, and weekend hours available as noted on the left side of this page.

Ellucian Mobile helps you stay connected to your college or university like never before. You’ll have access to great features that make your campus experience more effective, more efficient, and more fun. Features will vary by institution, but some key features include Courses, Registration, Directory, and Maps.

Visit the iTunes App Store or Google Play Store to download the app.

Check us out on the web to get information about viruses, outages, and other IT news.

Go to www.wittenberg.edu, click on “Information Technology” under the Academics heading.
