Things to remember about these timelines:

*Students working during the summer will require a separate, break timecard and therefore must be “hired” for that break. **This means that a separate position needs to be posted in Handshake.** and the student needs to be hired in Handshake. The break timecard is indicated by “BR” or “BRK” in the position title. A break timecard is NOT required for both Winter break AND Spring break for the upcoming year – students should continue to use their academic year timecards.
